

Credential and Required Training for all Early Interventionists and Early Intervention Supervisors

With funding from the U.S. Department of Education, Office of Special Education Programs (contracted through BabyNet), the Team for Early Childhood Solutions (TECS) provides technical assistance in support of the Comprehensive System of Personnel Development (CSPD) for South Carolina's system of Early Intervention services under Part C of IDEA. They also assist the lead agency in assuring that South Carolina's Early Intervention personnel meet state standards by maintaining and reviewing applications for the BabyNet Credential for Part C system personnel.

All Early Intervention staff, including supervisors, must submit an application for the South Carolina Infant Toddler Credential to the Team for Early Childhood Solutions (TECS) office within 2 weeks of employment or upon being assigned the aforementioned responsibilities. Full procedures for Credentialing can be found on the TECS' website at <http://www.sc.edu/tecs>. After submitting the initial application, it is required that the Early Interventionist or Early Intervention Supervisor submit information to TECS regarding changes that occur as a result of getting married, being terminated, etc. This is required to ensure that the Credential data base is kept current.

Once TECS receives the Credential Application, TECS will inform the Early Interventionist of the required training modules associated with their roles and responsibilities. Each Early Interventionist must complete the assigned training modules (web-based) and pass the competencies which correlate to each module within 18 months. As updates or changes are made to specific modules, Early Interventionists will have 90 days to complete the module update to maintain their credential. If an Early Interventionist is having difficulty passing the competencies, a professional development plan will be established by TECS for that Early Interventionist.

A Training Checklist is attached outlining training required within 30 and 60 days of employment as well as recommendations for professional development. See Attachment #1.

Training Requirements

Upon Hire:

New employees, full and part-time will receive a minimum of 40 hours of training. This training should include training provided within the first 30, and 60 days. Providers are encouraged to use all training methods to include, shadowing another employee, conference attendance, webinars, etc. See Attachment 1 for required training checklist.

Annually:

All staff are required to receive an additional 10 hours of job related training annually. Staff meetings, workshops and conferences may be considered in meeting this requirement. The TECS training modules should not be considered part of this 10 hour training requirement. See Attachment 1 for required training checklist.

Early Intervention Training Checklist

Topics	Min. time Required	30 days	60 days	Date Completed	Update Required
Required:
